

JavaFX Fundamentals

Venue: Online

Date: 2024 Sept 02,04 & 09

Resource Person: Ms. Deepa Sreekumar

Outcome: The online training session titled “**JavaFX Fundamentals**” was conducted for the second-year MCA students, led by **Ms. Deepa Sreekumar**. As a highly experienced Software Engineer and Technical Consultant, Deepa brought her extensive knowledge and practical expertise to the session, making the training both insightful and engaging.

The session provided a solid foundation in JavaFX, covering the essential concepts and components required to build interactive Java applications. Deepa’s teaching style was highly effective; she combined theory with hands-on practice, making the session accessible and easy to understand. Her ability to simplify complex topics and explain them in a relatable way allowed students to quickly grasp the fundamentals of JavaFX.

A highlight of the session was the **live demo sessions** conducted by Deepa, where she demonstrated key JavaFX features and tools in real time. These live demos were invaluable for the students, as they could see firsthand how JavaFX applications are developed and interact with the elements of a Java-based GUI. The practical exercises added a layer of engagement and provided students with a chance to apply the knowledge they gained in real time.

Students particularly appreciated Deepa’s **friendly and approachable demeanor**. She encouraged questions and patiently addressed each one, fostering a comfortable learning environment. Her methodical approach and willingness to clarify doubts made the session enjoyable and ensured that students left with a solid understanding of the subject.

In conclusion, “**JavaFX Fundamentals**” was an **excellent training session**, setting a strong foundation in JavaFX for the second-year MCA students. Deepa’s expert guidance, practical demonstrations, and supportive teaching style made the class a resounding success.
